Professional Summary

I am self-taught web developer. From the beginning of 2019 I start to learn and explore about Web Development. I love to code and learn everyday in this field. My passion is now to become a lead Web Developer. I am working in Upwork as a freelancer. But I want to learn more through my formal work experience and from my senior colleagues. Recently I have finished a Complete web Development Course from programming-hero.com which was really good for me to upgrade myself and I still learning from freeCodeCamp. I always try to follow modern technology, designs and committed to high standards of user experience, usability and speed over more than 2 years for multiple users. Lends detailed knowledge of SEO to increase visibility.
